

# ATK

## XR KIT

### XR CONVERSION KIT

This kit is designed to provide you with the superior handling characteristics and lightweight design of the ATK motorcycle, while enabling you to utilize the major components of your Honda XR machine. Assembly can be accomplished using the tools you would normally use to service and repair your Honda XR. Kit instructions make the conversion extremely easy and allow completion in a minimum amount of time. Conversion fits either the Honda XR500R or XR600R motorcycles (83-89 model year).

#### Kit includes:

- Frame and swingarm (complete with chain torque eliminator)
- White Power rear shock (complete White Power front end with front wheel, handle bar and brake is optional)
- Seat, fenders, and side panels
- Intake manifold and exhaust with Supertrapp
- TM 38 Flatslide carburetor

#### OPTIONS

- MX seat and fuel tank (no charge on exchange)
- Sidestand • White Power front end

*XR kit shown with optional White Power front end*
